

Press Release

For immediate release (Longmont, Colorado 03/01/2008): Sangat Precision Machining & Grinding Installs Complex, Special Machine Tool as Flagship Piece of Equipment.

Longmont Colorado-based Sangat Precision Machining & Grinding - specializing in machining for Aerospace and Defense, is pleased to announce the purchase of one Nakamura WT300 8-Axis CNC Turning Center. This purchase gives Sangat Precision the ability to machine intricate or unusual contours on round or cylindrical surfaces - a capability many companies in Aerospace and Defense are looking for.

Sangat Precision is dedicated to being a world-class provider of precision manufacturing services, meeting stringent standards as adopted by the aerospace and defense industries in particular. "The Nakamura WT300 brings the ability to work to very high levels of precision, and the parts produced are highly repeatable - essentially the parts are all very closely matched in terms of size. This gives us a competitive advantage," says founder and President James Ray.

Sangat Precision Machining & Grinding is a Longmont Colorado-based precision manufacturing company. Sangat Precision, an ISO 9001:2000 certified facility, provides precision machining and manufacturing services for Aerospace, Defense, Science, Medicine, and Small-arms manufacturers. Sangat Precision has particular expertise in machining high tolerance parts from exotic and/or difficult to machine materials and in meeting tight deadlines. Sangat Precision Machining & Grinding - We make you look good, because we do it right the first time. For more information call 1.866-537-1139 or visit the Sangat Precision Website at <http://www.sangatprecision.com>.
